**ED MILIBAND
FOR LABOUR LEADER**

What I Stand For

I believe that our party can only win again if we put our values at the core of everything we do. Values aren't an alternative to electoral success, they are the way to achieve it.

That is why I am campaigning for:

- **Equality and dignity in work** – tackling the gap between rich and poor, campaigning for a living wage and a high pay commission for both the public and private sector.
- **Rebuilding prosperity** – supporting new industries, training opportunities and taking on the Coalition's cuts and unfairness.
- **Building a sustainable future** – putting climate change at the centre of everything we do, including our economic future.

- **Foreign policy based on values** – not simply our alliances, learning lessons from the mistakes of Iraq.
- **Fairness in education** – excellent schools in every community and fairer funding in higher education.
- **Protecting individual liberty** – support for measures like CCTV but opposition to unnecessary state intervention in people's lives, like excessive use of stop and search powers.
- **A 21st century democracy** – support for the Alternative Vote, reform of the House of Lords, votes at 16 and more power for local government.

- **Building a movement** – more voice for party members and a culture change in the way we do business, with women comprising 50% of the Shadow Cabinet.

We did some great things in government, but the message from the last election is that the time has come to turn the page and to rediscover our shared mission.

I look forward to working with you to make it happen.
